

The New Jeep® Compass is equipped with the 5th generation of Uconnect infotainment system featuring a 10.1-inch Full HD (1920x1200) touchscreen display. Wireless connectivity allows you to seamlessly connect your compatible smartphone with:

- Apple CarPlay support for easy access to all iPhone features that are safe to use while driving, from Siri voice control, to your contacts, messaging apps, playlists and more: a smarter, safer way to use your iPhone while keeping your hands on the wheel.

- Android Auto™ integration to easily connect your smartphone to the vehicle and access your favorite navigation, media, and communication apps on the road while minimizing the distractions*.

Get directions, make calls, send and receive messages, listen to music, audiobooks or podcasts while still staying focused on the road.

You can also set a custom interface while staying fully connected to the internet thanks to the new 4G Wi-Fi hotspot feature—available on demand after a free trial subscription. Run your apps and navigate the menu with a simple swipe, or use dragádrop to access sections directly.

Enhance your driving experience with Tom Tom® technology: your state-of-the-art navigator with interactive 3D maps, quick intuitive search results, instant route planning and ETA, live traffic updates and speed camera alerts, fuel price, and weather information. The user experience goes a step further thanks to the integration of Amazon Alexa: simply make a voice request to your in-car Alexa Voice Service** and get what you need, when you need it.

CONNECTED TO AN IMMERSIVE

* To use Android Auto on your car display, you'll need an Android phone running Android 6.0 or higher, an active data plan, and the Android Auto app. Google, Android, Android Auto, YouTube Music and other related marks are trademarks of Google LLC. Android Auto is not available in all regions and languages. Please check https://www.android.com/auto/ for country and language availability.

**Only available on Radio Uconnect 10,1" Navi. Radio Uconnect 10,1" Navi standard on trims S, Trailhawk, optional on Longitude, Night Eagle, Limited.

Discover more in the cabin of your New Jeep, Compass, where comfort aligns with modern style. The cabin space is ergonomic and smooth. Elegance complements luminosity starting with the dual-pane sunroof* that fully expresses the open air freedom of riding a Jeep. The spacious bucket seats smartly blend with the quality touches of the interior, refined in every detail. Space is more functional with the abundant rear leg room and the large trunk for extra cargo area and easy handling. Comfort gets practical. The sky is the limit.

* Option available

SPACE EVOLVES INTO COMFORT Thoughts become needs. Needs demand solutions. Connectivity in the New Jeep, Compass is designed to suit your needs and complement your world. So driving feels free, while you stay safely connected all the way.

CONNECTION INTO INTERACTION

N A

HELP BUTTON • •

Through the My Uconnect mobile app, radio display or built-in HELP button, contact the emergency service call center (24/7) that receives your last known GPS location and vehicle identification number.

An automatic call is generated in certain crash conditions.

ROADSIDE ASSISTANCE • •

Directly contact the call center to receive roadside assistance through the My Uconnect mobile app, radio display, built-in Assist button in the vehicle or automatically if a major system is compromised.

CUSTOMER CARE

Contact the call center with your questions and concerns about your vehicle through the My Uconnect mobile app, radio display and built-in Assist Button. Your car provides vehicle location and vehicle identification number.

VEHICLE HEALTH REPORT

Receive emails or notifications
through the My Uconnect
mobile app and web portal,
you will receive information about
the health and maintenance
of your vehicle.

MY REMOTE

REMOTE OPERATIONS

Interact and send commands
to your vehicle, like locking or
unlocking the doors and
controlling the vehicle's lights
even when you aren't close to
it through your smartwatch or
My Uconnect mobile app.

VEHICLE FINDER

Visualize your vehicle's location on your smartwatch and smartphone, through the My Uconnect mobile app or web portal. You can also launch pedestrian directions from your position to the vehicle.

DRIVE ALERTS

Stay in control of your vehicle even when it is driven by another person. Receive alerts on My Uconnect mobile app or web portal for preset parameters.

AT-HOME DIGITAL ASSISTANT

Get vehicle info, send destinations, search points of interest (POI), lock and unlock doors and control the vehicle lights, using your At-Home

Digital Assistant.

E-CONTROL

When the vehicle is plugged, start charging using My Uconnect mobile app or through the specific button on the recharge door.

Schedule recharge of your vehicle on daily basis using My Uconnect mobile app or through the specific button on the recharge door.

Turn on climate of your vehicle remotely using My Uconnect mobile app.

Available only on 4xe version

MY CAR

VEHICLE INFO •••

Get real-time information on your vehicle's fuel and battery level (only for 4xe), tire pressure, odometer and oil life on a smartwatch, the My Uconnect mobile app or the web portal.

VEHICLE HEALTH ALERT

Receive specific push notifications about powertrain, oil, fluids brakes, suspension, safety and lights on a smartwatch, the My Uconnect mobile app or the web portal.

IN-VEHICLE NOTIFICATION

You can receive notifications about predictive maintenance and service subscriptions.

For service subscriptions you can receive a call directly on vehicle's touchscreen.

MY NAVIGATION

SEND & GO

Using the My Uconnect mobile app, choose your destination and send it directly to your vehicle's navigation system to get you on your way.

LAST MILE NAVIGATION

Park your vehicle and get the walking

route towards your destination

on your smartphone.

You can visualize public charging stations and some specific information both on My Uconnect mobile app and radio display.

Available only on 4xe version

STATION FINDER

POI SEARCH

Easily search for points of interest (POI) directly on the map of the My Uconnect mobile app, and send them to your vehicle's navigation system.

LIVE TRAFFIC / LIVE WEATHER / LIVE SPEEDCAMS

Get live traffic, weather and speed camera alerts on your touchscreen, keeping you up to date on all the most important details to guarantee a smooth journey.

DYNAMIC RANGE MAPPING

My Uconnect mobile app graphically

displays on the map the reachable area

based on real time battery and fuel level.

PARKING FINDER / FUEL FINDER

You can find nearest off-street parking locations and gas stations with details including opening hours, address, phone and real time availability.

P

MAP UPDATE OVER THE AIR

Maps of your infotainment system are always updated "over the air"

with a seamless frictionless experience.

MY eCHARGE

MY EASY CHARGE:

You can manage your account, find a charging station, start or stop a recharge, pay directly with your smartphone, checking all the transaction history and buying an RFID card.

MY EASYWALLBOX:

At home you can manage and control your Wallbox via Bluetooth using your smartphone

MY CONNECTEDWALLBOX:

At home you can manage and control your connected Wallbox via Wi-Fi using your smartphone

Available only on 4xe version

MY WI-FI

WI-FI HOTSPOT*

After registration on the Ubigi website (Ubigi me selfcare) and on-board connection through the radio, connect up to 8 devices to easily surf the web, to stream shows and music, to use Amazon Alexa Voice Service**

NEW in board and much more.

* Wifi on-board by Ubigi

** Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Only available on Radio Uconnect 10,1" Navi. Radio Uconnect 10,1" Navi standard on trims S and Trailhawk, optional on Longitude, Night Eagle, Limited.

MY ALERT

THEFT ALARM NOTIFICATION

Receive notifi cations via SMS, My Uconnect mobile app or web portal of any suspected theft, unauthorized movement or security breaches related to your vehicle.

Contact the operations center immediately if your vehicle has been stolen. Once the theft is confi rmed with a police report security features including vehicle tracking will be activated.

MY FLEET MANAGER

Fleet Management Portal is the solution for managing your fleet. The interface and totally remote accessibility allows fleet managers absolute control over the activities, service status, maintenance and assistance of each vehicle

ASSISTANCE

Difficult roads, sudden obstacles, unexpected scenarios. Whatever happens, safety is always a matter of control. In the New Jeep, Compass your drive is smooth and secure, thanks to 70 active and passive safety features, including Forward Collision Warning Plus and Lane Departure Warning Plus (standard on all models), that keep you safe from all possible dangers along the road. Anywhere you go.

Blind Spot Monitoring

For the rear "blind spot" of the vehicle, a sophisticated radar-based system detects an approaching vehicle behind you. When on, the device instantly alerts the driver with a symbol that lights up in the side view mirror.

Adaptive Cruise Control

Adaptive Cruise Control with Stop and Go* automatically adjusts the driving speed to maintain a pre-selected distance from the vehicle ahead. It can even bring the vehicle to a complete stop if necessary, without driver input.

Lane Departure Warning Plus

A camera "reads" lane markings and detects possible collision risks, alerting the driver (when the turn signal is off) if the vehicle is veering out of its lane. If the driver can not respond promptly, the system will automatically steer the vehicle back on course.

Forward Collision Warning Plus

Uses radar sensors to detect if the New Jeep, Compass is approaching another vehicle too rapidly and will audibly alert the driver and apply brakes if necessary to reduce the chance of a collision.

Rear Camera with dynamic lines

The ParkView back-up camera provides perfect visibility when reversing and assists the vehicle's movement and direction thanks to the Dynamic Lines visible on the Uconnect™ screen.

Pear Cross Path Detection

Sounds and icons immediately warn you of any approaching vehicle or obstacle when backing up.

Automatic Park Assist

Ultrasound sensors give the New Jeep. Compass all necessary information to park in Auto mode. All you need to do is activate the system, control the gear and follow the simple step-by-step instructions.

Wireless charger

A wireless charging pad is integrated in the vehicle's central tunnel, allowing you to easily recharge your smartphone while traveling.

DISCOVERNE W

ENERGY

Thanks to full electric mode, the New Jeep. Compass Plug-in Hybrid 4xe is born to be two cars in one with petrol engine dedicated to the propulsion of the front wheels, and the Plug-in Hybrid reserved for the rear ones. The propulsive synergy of the plug-in hybrid system performs with a 130 or 180 hp gas engine dedicated to the front axle combined with addictional 44kW (60hp) from electric unit reserved for the rear wheels. The New Jeep. Compass power output ranges from 190 hp to 240 hp, depending on the trim. The electric motor system is powered by an 11.4 kWh battery, which can recharge onboard during deceleration through regenerative braking, or can be connected to an external domestic or public charging station. With a fully charged battery, the New Jeep. Compass can drive up to 49 km in full electric mode*. An entirely new energy for Jeep. Compass that explores new possibilities.

*WLTP cycle.

FUEL EFFICIENCY

The engine is specifically designed to increase fuel efficiency, with the integration of an electric engine and batteries in the rear axle, thus eliminating the need for any mechanical connection between front and rear axis.

The New Jeep, Compass Plug-in Hybrid 4xe gives you great potential from an internal combustion engine coupled with an electric motor. The 4xe system provides a perfect balance between performance, electric power, fuel consumption and charging time. The dual engine combination offers great capability through enhanced 4x4 performance with lower emissions and urban efficiency.

ENERGY REGENERATION

Charging your battery on the go is fast and easy with e-coasting, which uses the negative torque of engine brake as a way to charger.

The 4xe system keeps your vehicle stable and easy to maneuver in every driving environment, adjusting torque to the wheels and allowing great control. In other words, 4xe means four-wheeldrive always guaranteed in hybrid mode, even when the battery is at its minimum.

GREAT OFF-ROAD CAPABILITY

The entire system is designed for an increased lowspeed torque capability thanks to an electric engine capable of delivering full torque from driving start.

EVOLVES INTO ADVENTURE

Adventure has no limits. The New Jeep, Compass is the driving proof. The Trail Rated® badge signifies it successfully passed a series of highly demanding tests in five key categories (traction, maneuverability, articulation, water fording and ground clearance). The 17-inch all-terrain tires, specific front bumper, raised ride height, underbody protections, the signature rear tow hook and the Rock Rails by Mopar, (available upon request) further enhance its off-road capability. Whether you are cruising in the city or venturing into the wild, any obstacle is an exciting diversion.

Trail Rated® testing begins in the state-of-the-art facilities at FCA US headquarters before heading out to some of the most challenging terrain on earth.

It is always the right time to recharge your New Jeep. Compass. You can choose the charging mode based on your habits and needs. Recharging is easy, the notification lights that indicate the selected charging mode allow you to easily monitor your vehicle's charging status. A flashing blue LED indicates that the scheduled charging program is on. The Green LED shows charging level and a flashing Red LED signals a problem or incorrect use. You can easily manage the charging power and schedule the charging timing remotely by APP, anytime you need.

your New Jeep. Compass and choose from an extensive list of accessories that make sure all details are covered: like the Telescopic bar that holds your luggage and storage in place, or the Roof Rails to take your sports equipment and any large cargo with you anywhere you go. Or just add that extra touch of flair with the new Matte Black and Pantone Blue border Hood Decal, mirror cover decal and front grill ring* designed for your Compass 4xe.

Make your home recharging solution smart with EVBox Elvi "connected wallbox": Wi-Fi, Cellular SIM connectivity and a short time (1hr and 40 mins thanks to 7.4 kW power) to reach a complete charge. The main advantages of EVBox Elvi "connected wallbox" compared to easyWallbox are the remote assistance during the entire life cycle of the vehicle, the Home Installation Pack and the possibility to check and track the charging history thanks to the authentication of the single charging session (using the App or the RFID card). You can schedule the charging according to your needs through the Uconnect™ system or the mobile app. Download the My Uconnect mobile app set and monitor your Wallbox remotely.

Visit the Jeep, on-line store at: https://moparstore.co.uk/

Mopar, Vehicle Protection offers a series of premium extended warranty and maintenance plan. Only genuine parts by Mopar, will be used by highly qualified and specialized technicians. Choose the service contract that fits you best.

The values of the CO₂ emissions and fuel consumption are defined on the basis of official tests in compliance with the provisions under the applicable EU Regulation in force at the time of the homologation. In particular, the values indicated are determined on the basis of the WLTP test procedure. The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data.

The values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route,

the weather and road conditions, as well as the condition, use and equipment of the vehicle. The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with subsequent configuration depending on equipment selected and/or size of tires selected. The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle. In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the vehicle's accompanying documents. In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each Country.
